

**IQUBX
GREEN CERTIFIED**

**MODULAR FURNITURE
&
INTERIOR SYSTEMS**

KEY FEATURES

- IQUBX products are designed with **minimum number of components** for minimum logistics, ease of customization and product evolution. Various models available as per client requirement
- Our products are modular by design to achieve **high level of customization** for end user. Most of the products can be modified locally
- Many components can be used in different products to achieve economy of logistics, ease of maintenance and repair. This also contributes to low carbon footprint, almost nil wastage, with high possibility of recyclability and reusability
- These products are made from 100% recycled aluminium and follow green design principles. They are the only products in their respective categories which have been **certified "GREENPRO by IGBC, CII..**

KEY ADVANTAGES

- Saving of Time in construction – very fast installation
- Optimal cost
- Enhanced aesthetics and finishing of the interiors
- Low Maintenance
- Allows very easy access to building systems for maintenance
- Reduce labour component

KEY FEATURES

Design objectives are achieved through innovative strategies which give real advantage to organizations in achieving their sustainable goals

design objectives

product features / design strategies

advantages

Minimum wastage & logistics

Lower development cost & fast product evolution to address customer needs

Overall lesser impact on environment with ease of recyclability

Highly engineered design at micro level to deliver a holistically simple products

Innovative and **unique patent** designs

Modular construction

Minimum number of components

Floor Junction box (patent pending) has only 3 profiles

Ceiling Trap door has just 3 profiles

Skirting & Char rail has single profile with the waste section used as mounting cleat on which the skirting profile self- interlocks.

Multipurpose use of same Components in different products & multi use of same product system for different functionality

Junction Box & Ceiling Trap door – both are having same profile

Skirting & Chair rail – are also having same profile

CTR, CDR, Server panel & electrical panel – two different products but are having the same profile

Glazed partition, modular work station partition & door frame – are also having same profile

Avoiding connector parts through **innovative standardized joinery** like nuts & bolts, screws across product lines

Maximum homogeneity of basic material – **100% recycled aluminium**

Highly reusable and High Scrap value

minimum wastage and logistics

long life cycle of product

Very low maintenance - Robust, strong, durable and non-corrosive

minimum and fast assembly time, ease of disassembly and repair, reduced human labor

ergonomic comfort of end users & **enhanced functionality**

Cost effective designs

built in flexibility of **customization as per client requirements**

ideal for recyclability of pre-consumer as well post-consumer material – **meeting user organization sustainability goals**

DRYWALL CLADDING ROOM PARTITION WALLS SYSTEM

[HTTPS://IQUBX.COM/DRY-WALL-CLADDING-ROOM-PARTITION](https://iqubx.com/dry-wall-cladding-room-partition)

KEY FEATURES AND ADVANTAGES

- Very fast to erect
- Specially designed for stone and tile cladded drywall partition or dry stone cladding
- **Highly engineered sections of framework allows**
 - Very strong and durable frame
 - Very strong joinery which is completely dry
 - Very high quality and flexible aesthetics
- Allows maintenance and post construction installation of services behind the stone or tile cladding. Shifting of partitions is also possible.
- **Allows change of cladding stones and tiles with great ease**

USE CASE IN BUILDINGS

- Ideal for making the **wet areas like Toilet and pantry blocks** ultra fast and with high quality of finish
- Reception and lobbies and even building facades can be **clad with stone** very fast with high quality finishes with this dry cladding system. Can be used for **very fast site premises** **partitioning and room partitions** with cement board finishing panels and acoustic insulation to emulate masonry characteristics

IQUBX

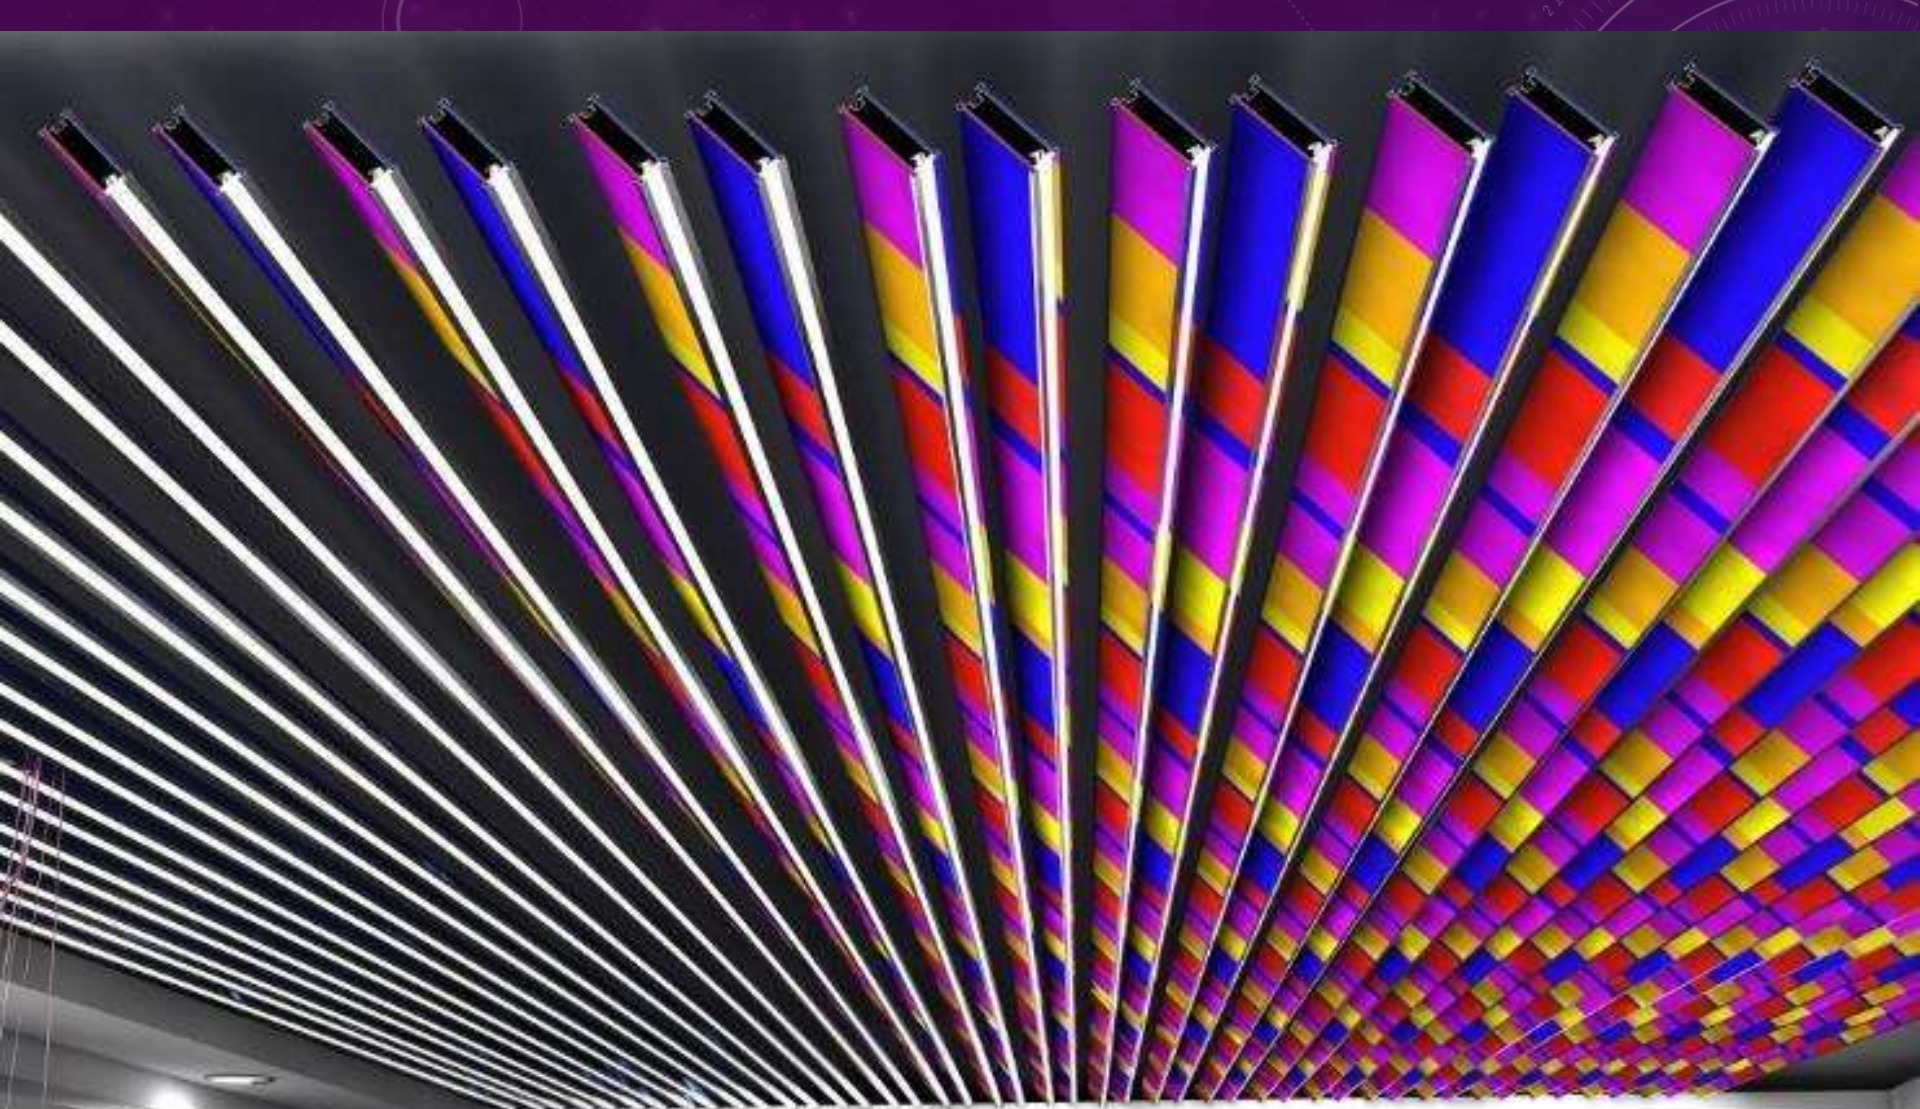

BAFFLE CEILING SYSTEMS

[HTTPS://IQUBX.COM/ALUMINIUM-SOUND-BAFFLE-CEILING-SYSTEM/](https://iqubx.com/aluminium-sound-baffle-ceiling-system/)

KEY FEATURES AND ADVANTAGES

BFC 1, 2, 12

- These are the only baffle ceilings in the country which have been certified GREENPRO by IGBC, CII
- **PATENT** applied design
- World's only baffle ceiling system which is modular, can be fixed in various configuration, and with changeable finishes. **It can be hung vertical or at a angle of 45 degree.** Elements can be combined to form different shapes
- All the exposed surfaces can incorporate multiple changeable finishes including **lacquered glass, cork, laminates, polished veneer, printed vinyl etc** Unique design **can even incorporate LED lighting on all the surfaces**
- Trendy, unique design is already in high demand for use in malls, cafeterias, offices, lobbies, residential towers and hotels
- Price is comparable to any good branded baffle ceiling system with added unique advantages of incorporating LED lighting and multiple changeable finishes

BFC2 with multicolour finish through laminate insert or printed vinyl on sunboard to achieve this effect

BFC2 with LED lighting at bottom and wood finish

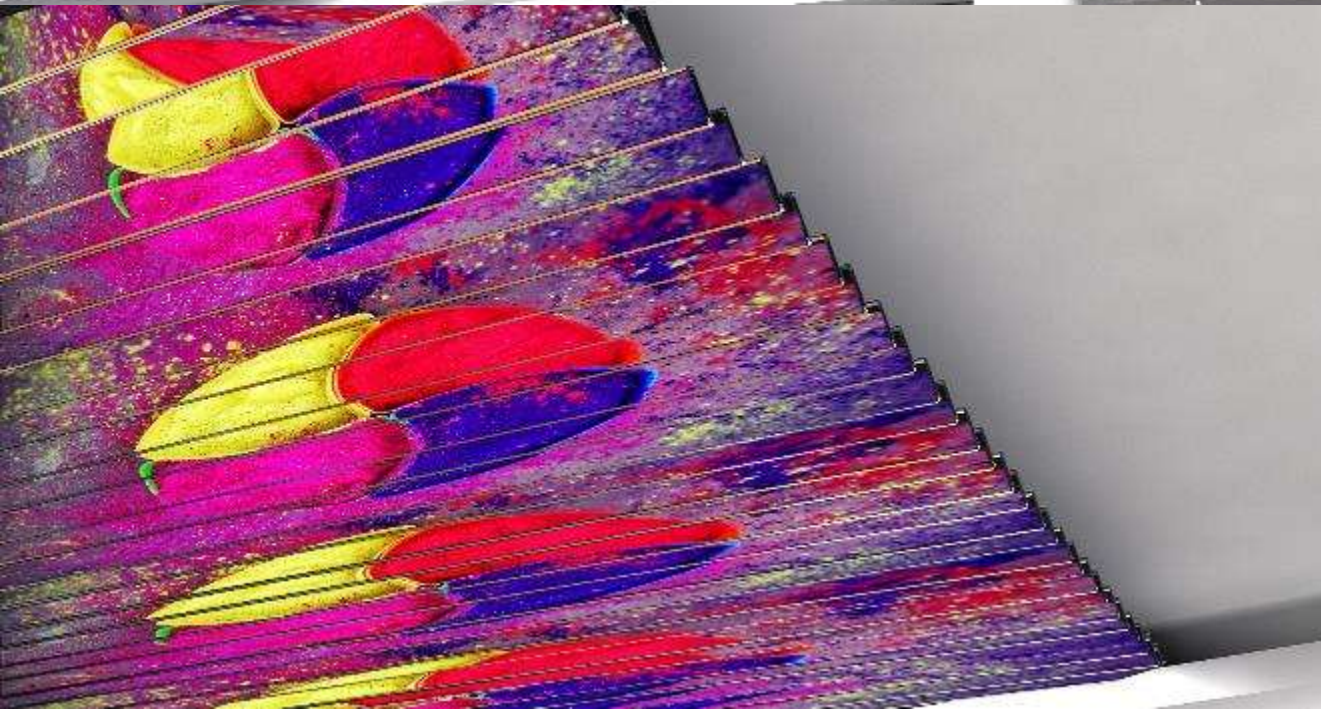

BFC2 with LED lighting at intervals

BFC2 double stacked with LED lighting and prelam board extensions

BFC2 with LED lighting and coloured print, shaped profile to form a backdrop of wall baffles and continuing into ceiling

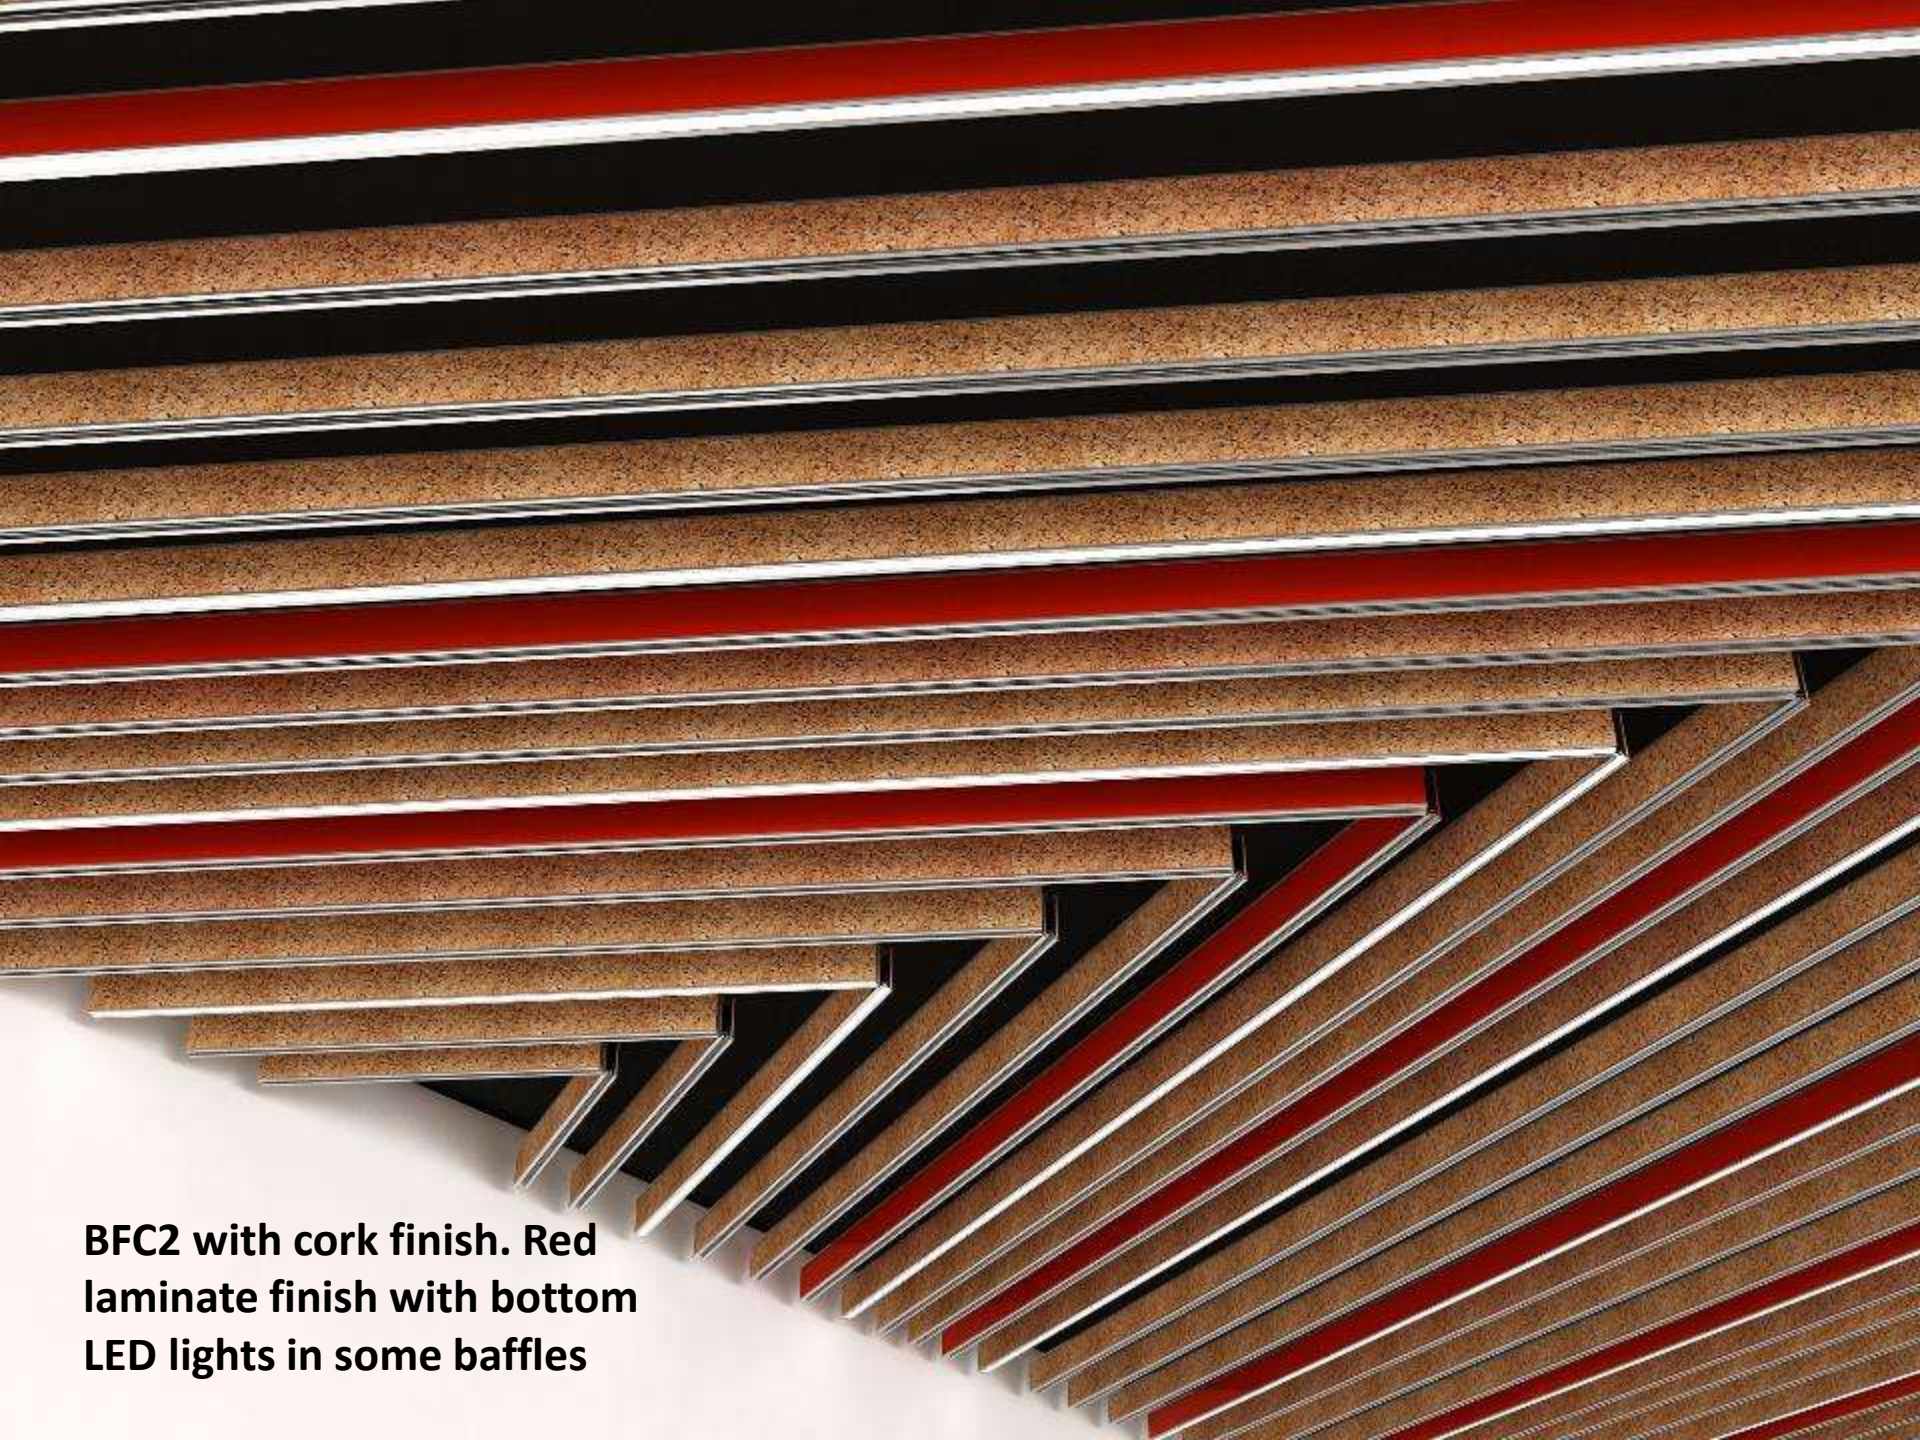

All the exposed surfaces can incorporate multiple changeable finishes including **lacquered glass, cork, laminates, polished veneer, printed vinyl** etc

These finishes can be changed at will, depending on the occasion, to create an event

BFC2 with cork finish. Red laminate finish with bottom LED lights in some baffles

BFC2 with cork finish. Red laminate finish with bottom LED lights in some baffles

BFC1 powder coated in alternate yellow and blue pattern

KEY FEATURES AND ADVANTAGES

BFC 3

- These baffle ceilings are under certification GREENPRO by IGBC, CII
- World's only baffle ceiling system can be supplied in any **height from 100mm to even 600 mm or more**, and with any insert finishes.
- All the exposed surfaces can incorporate multiple finishes including **mineral tile, gypsum board, cork, laminates, polished veneer, printed vinyl** etc
- **Use of gypsum board and minearal tile or cork can achieve very high NRC at very low rates**
- Trendy, unique design can be used for any and all kind of spaces especially as it is very economic priced
- Price is very very low as the chassis construction economizes on the material and large sizes increases the center to center spacing while cost of ech baffle goes up only marginally

BFC3 is made of a top section also mirrored at bottom, and these two joined with strips to form basic chassis

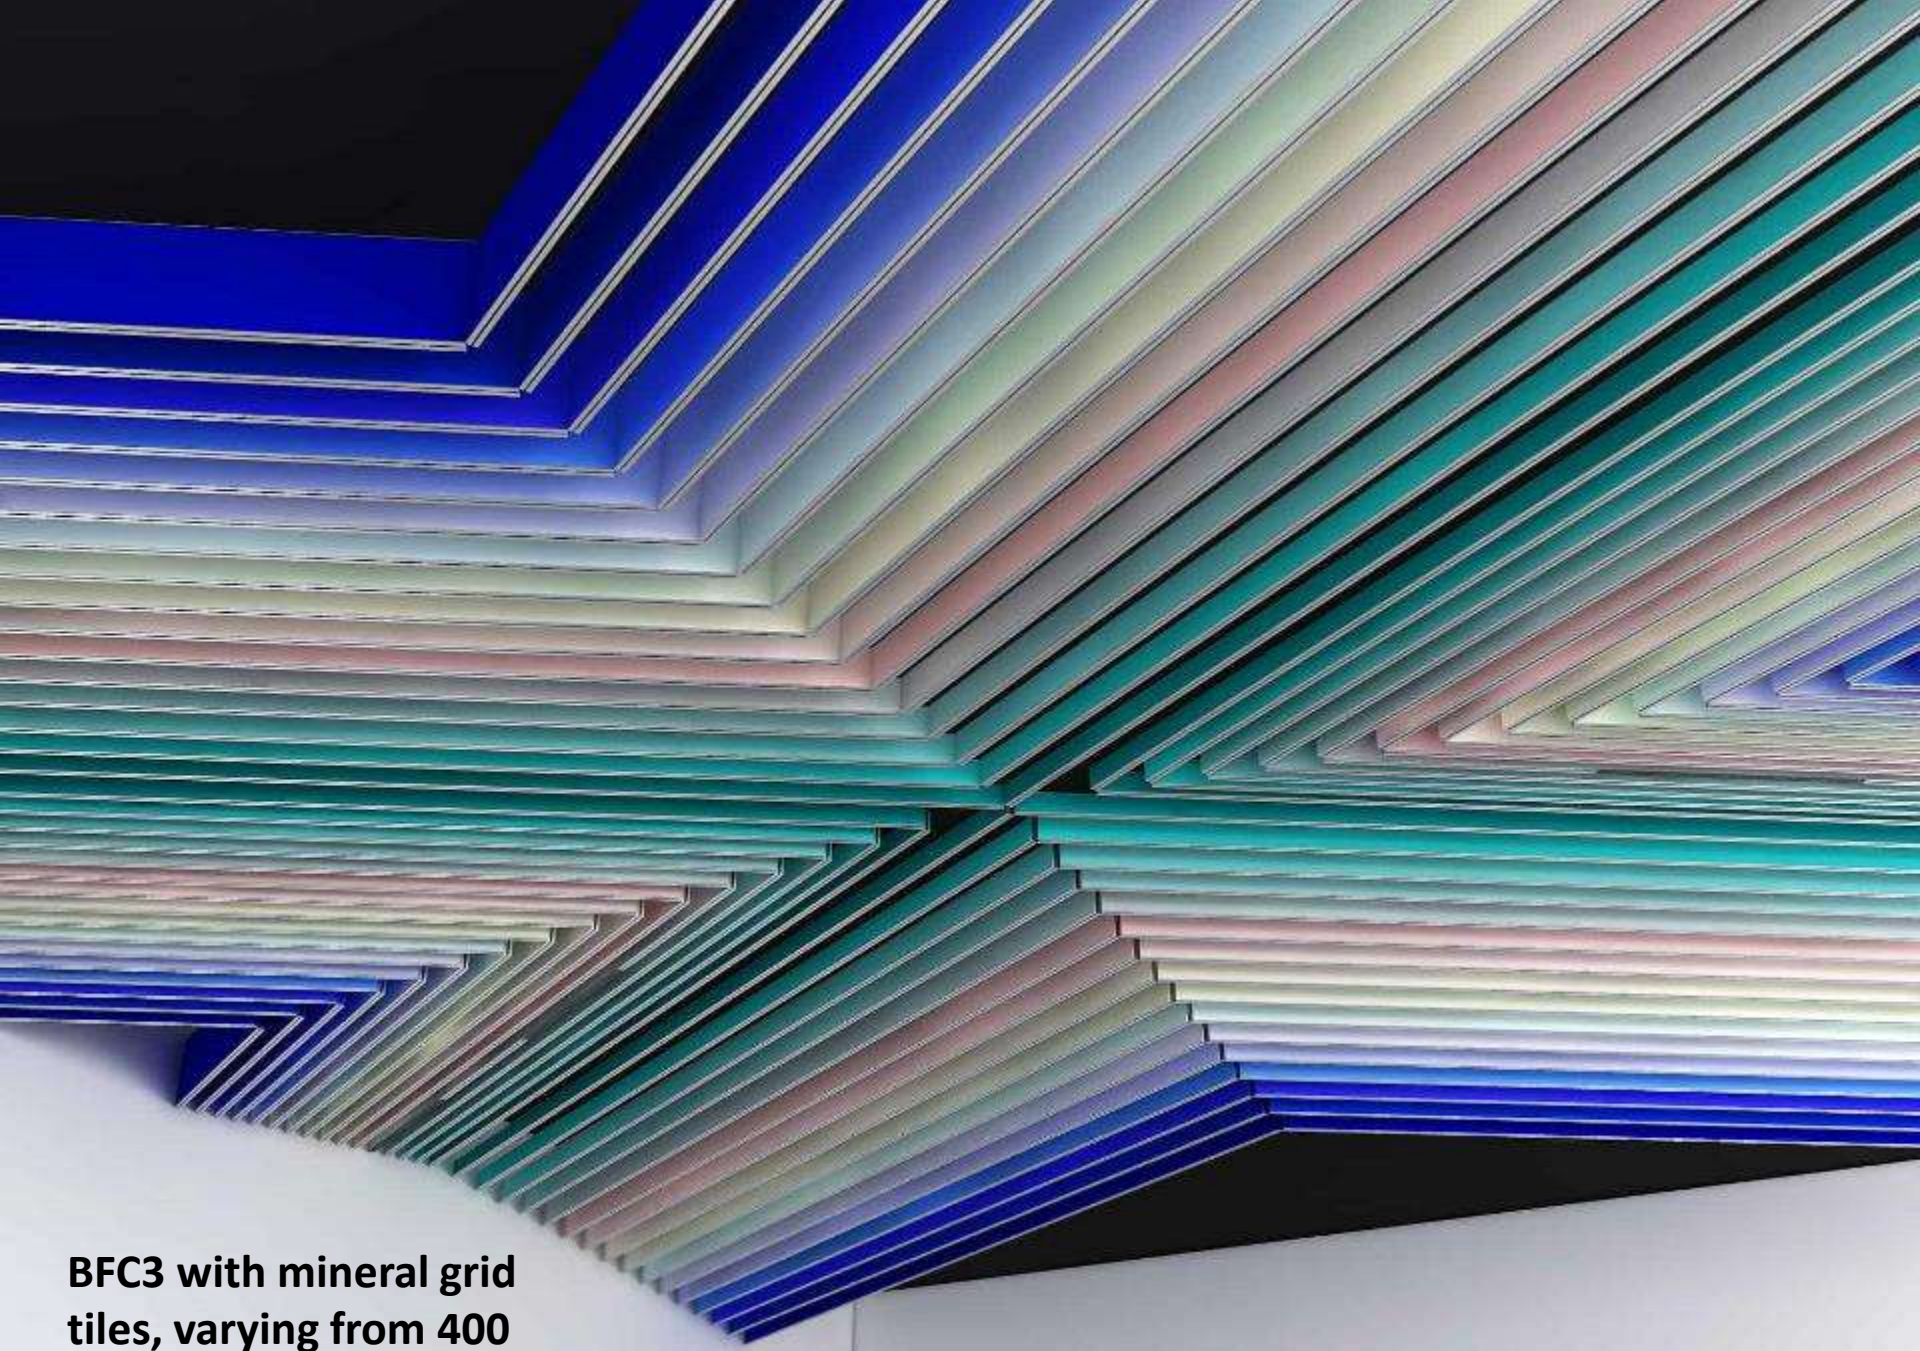

**BFC3 with cork finish,
any height possible**

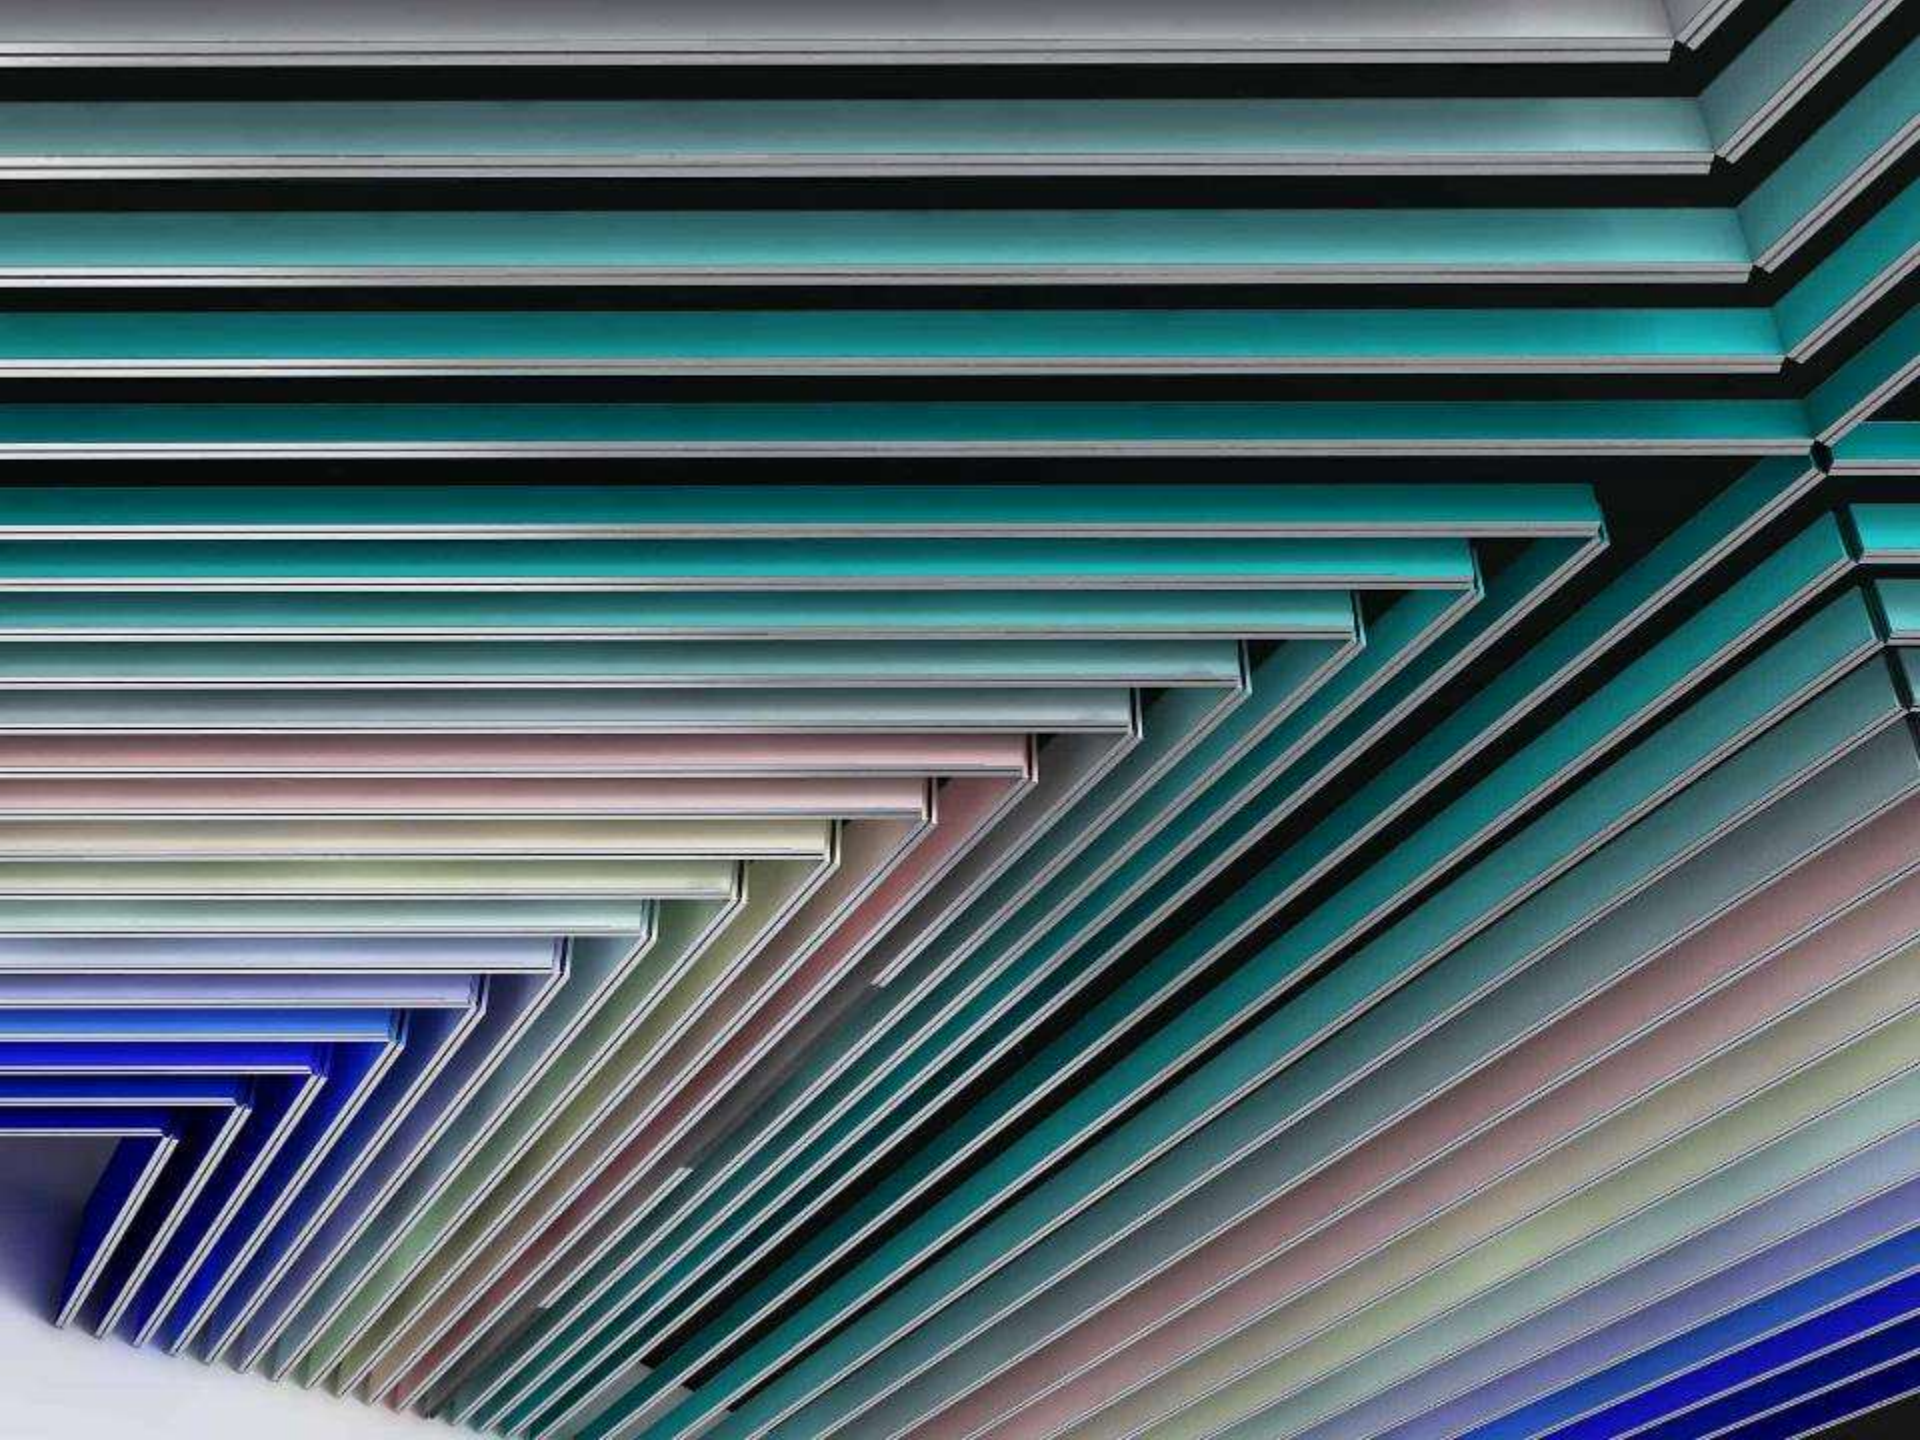

BFC3 with mineral grid tiles, any height possible. This finish can be painted as well

BFC3 with mineral grid tiles, any height possible. This finish can be painted as well

BFC3 with mineral grid tiles, varying from 400 mm to 200 mm high, painted in different hues to create beautiful ceiling, still very economic

KEY FEATURES AND ADVANTAGES

BFC 4

- These baffle ceilings are under certification GREENPRO by IGBC, CII
- Generic box section 25 x 100 size
- Can be anodized or powder coated in any finish like wooden finishes of different shades or any solid colours
- Can be installed with very simple proprietary hook section or directly with M5 bolts
- **Price is very competitive vis-à-vis other brands**

BFC4 with wood finish

**BFC4 with wood finish,
fixed in wave pattern**

BFC4 with wood finish, fixing detail directly with M5 bolt and with help of proprietary hook

KEY FEATURES AND ADVANTAGES

BFC 5

- These baffle ceilings are under certification GREENPRO by IGBC, CII
- Very innovative stackable system – can be stacked in any numbers
- Can be installed in two ways – upside as well as reversed with bottoms up (for incorporating lighting)
- Can incorporate LED lighting at bottom in entire or part length, as desired
- Can be anodized or powder coated in any finish like wooden finishes of different shades or any solid colours
- Can be installed with very simple proprietary hook section or directly with M5 bolts
- Price is very competitive vis-à-vis other brands

BFC5 with wood finish, single and double decked

BFC5 with wood finish, single and double decked, hung inverted to allow light strip below

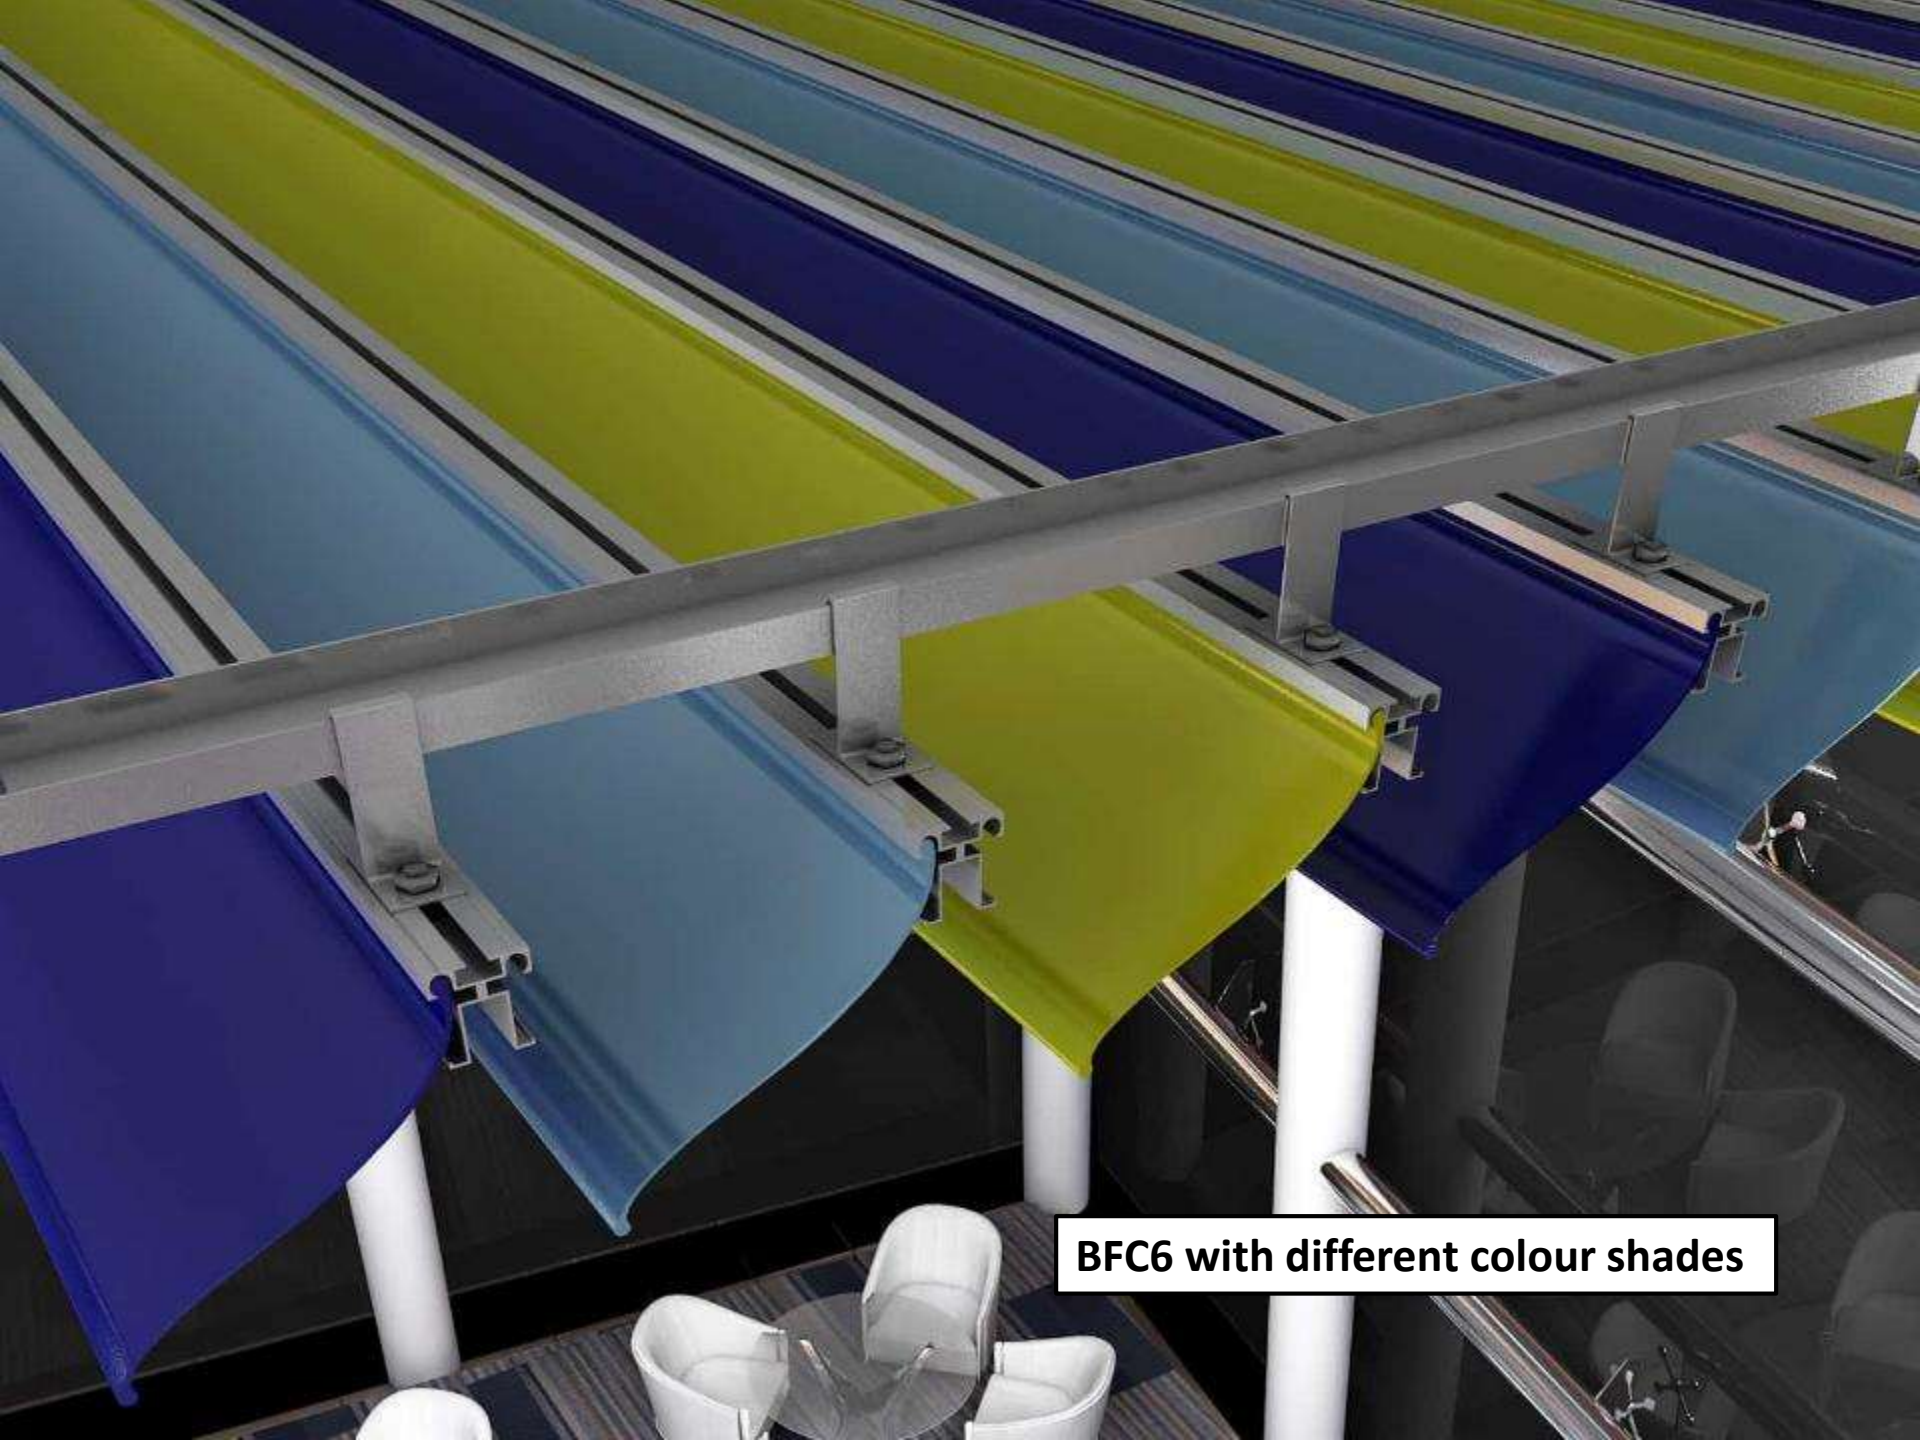

BFC5 with various colour shades and asymmetric decking of 1 to 3 baffles in different lengths, LED lighting in some

KEY FEATURES AND ADVANTAGES

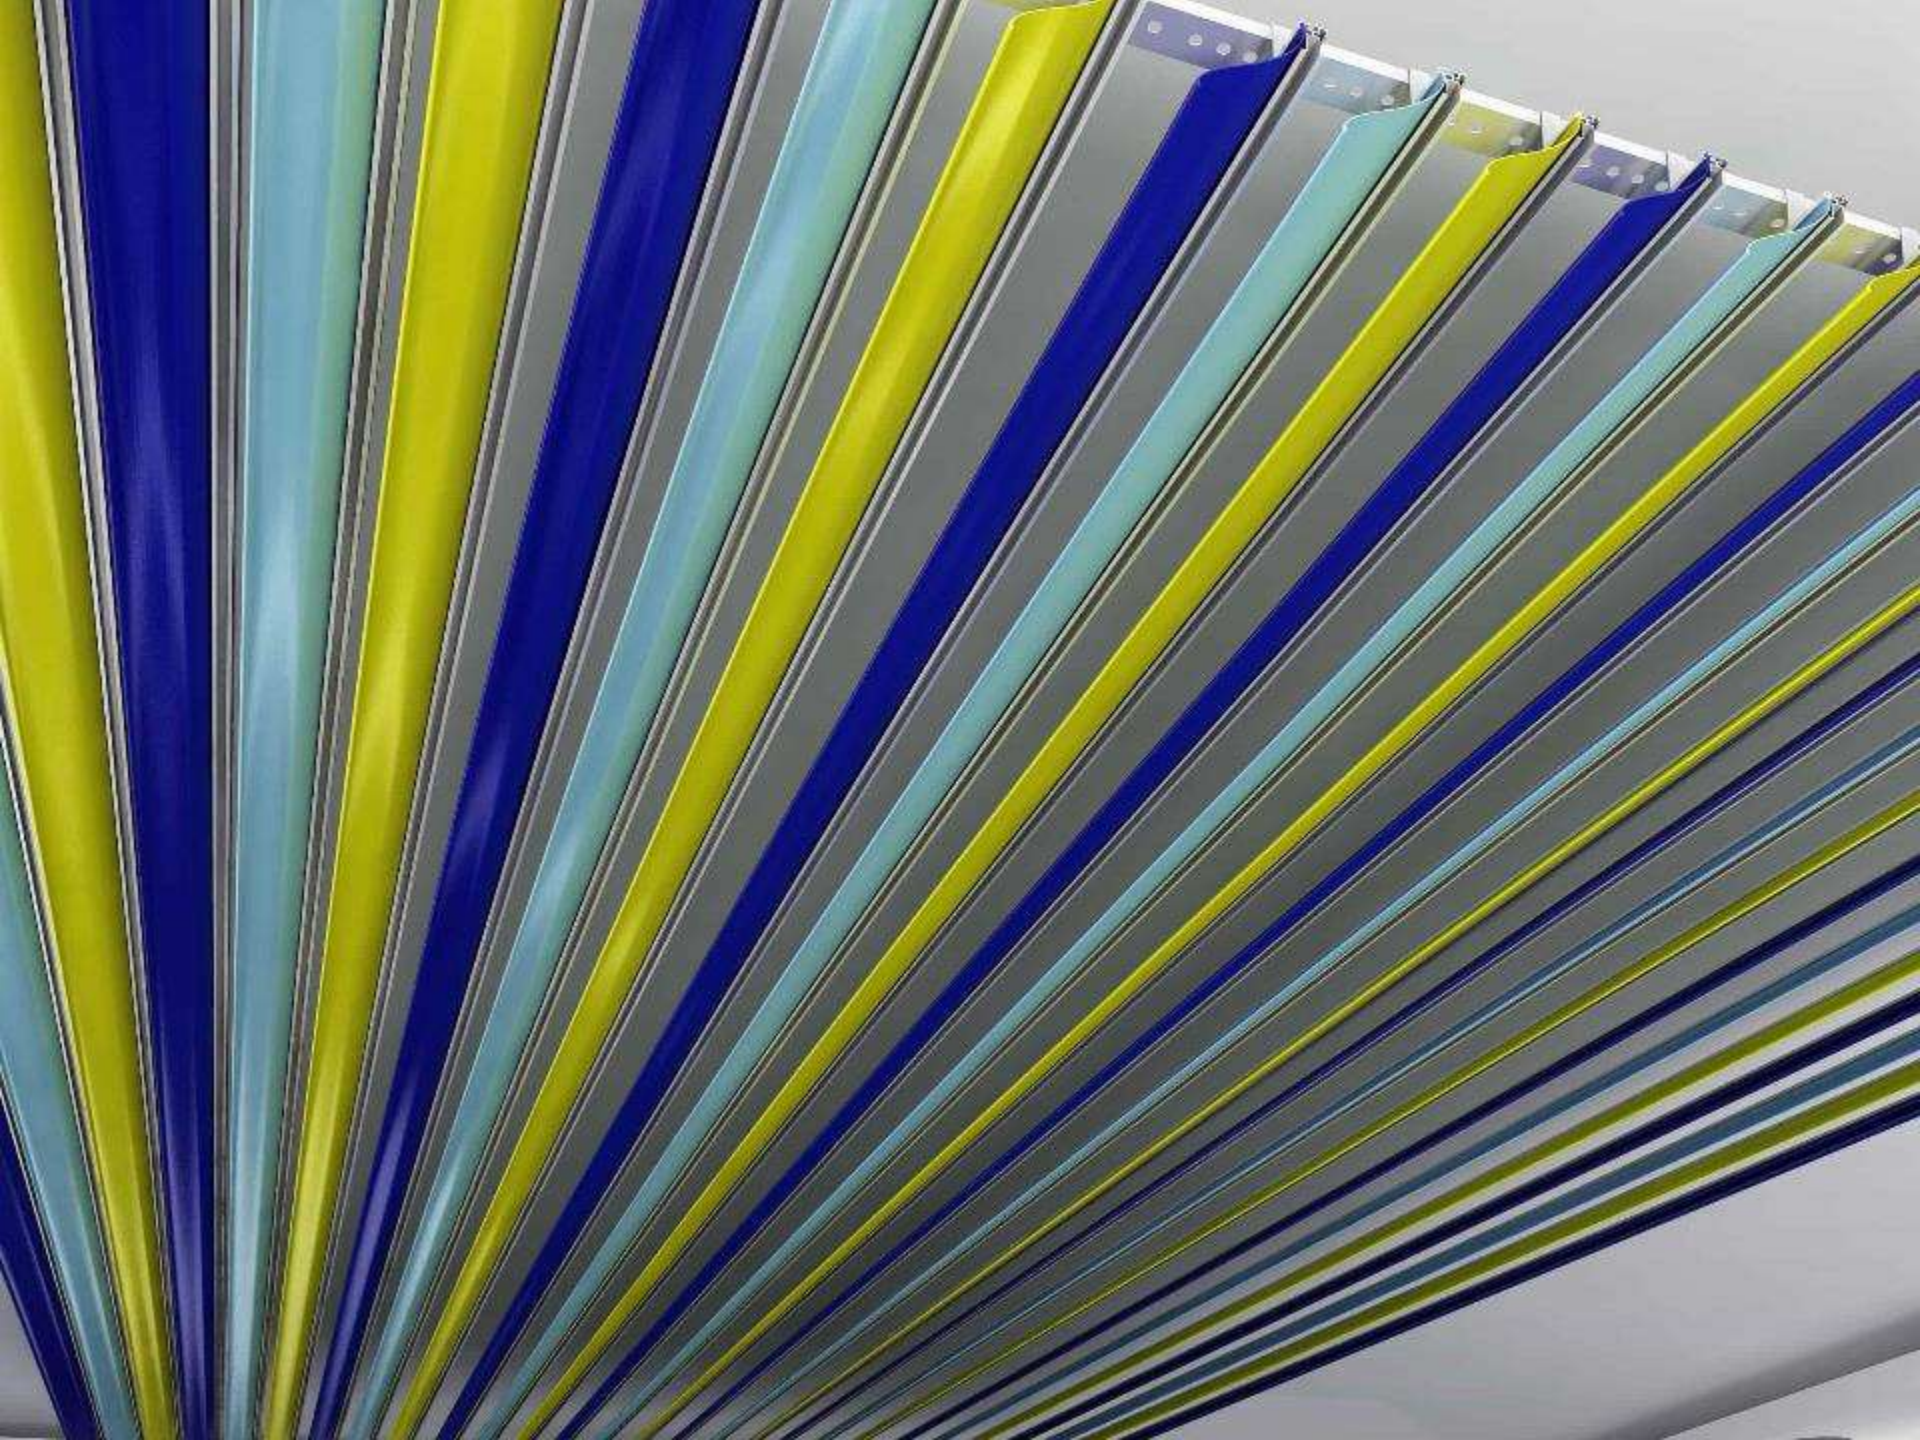

BFC 6

- These baffle ceilings are under certification GREENPRO by IGBC, CII
- Very different and unique design with curved baffles
- Can be installed with all baffles looking one way as well as both ways
- Can be anodized or powder coated in any finish like wooden finishes of different shades or any solid colours

BFC6 with different colour shades

KEY FEATURES AND ADVANTAGES

BFC 7

- These baffle ceilings are under certification GREENPRO by IGBC, CII
- Very different and unique design
- Can be installed with different baffle material like acoustic panel, prelam board, mineral tile, raw particle board – or any other material upto 12mm thick

BFC7 with acoustic panel cut in wave pattern, 2 different shades

BFC7 with acoustic panel cut in wave pattern, 2 different shades

**BFC7 fixing detail

IQUBX

CEILING TRAP DOORS

[HTTPS://IQUBX.COM/ACCESS-CEILING-TRAP-DOOR/](https://iqubx.com/access-ceiling-trap-door/)

KEY FEATURES AND ADVANTAGES

- IQUBX ceiling trap doors are the only trap doors which have been certified **GREENPRO** by IGBC, CII
- **Various models available as per client requirement**
- Can be fabricated very fast in any size as per requirement. **Iqubx ceiling trap doors are the only one in the country which can be supplied in very big sizes upto 8'X4'**
- A unique stiffening element doesn't allow large doors to warp/ sag even for big sizes. **IQUBX trap doors are very strong and durable**
- Unique Hinge systems do not allow shutters to fall accidentally and are very safe
- **IQUBX ceiling trap doors are the only one which can be fitted in POP ceiling**
- Zero maintenance, very safe and excellent finish
- **IQUBX ceiling trap doors are comparable in pricing to any other “jugaad” systems, imported Chinese ones, or traditional wooden shutters fixed with auto-closing hinge in wooden frame**

allenkey lock with firm platform

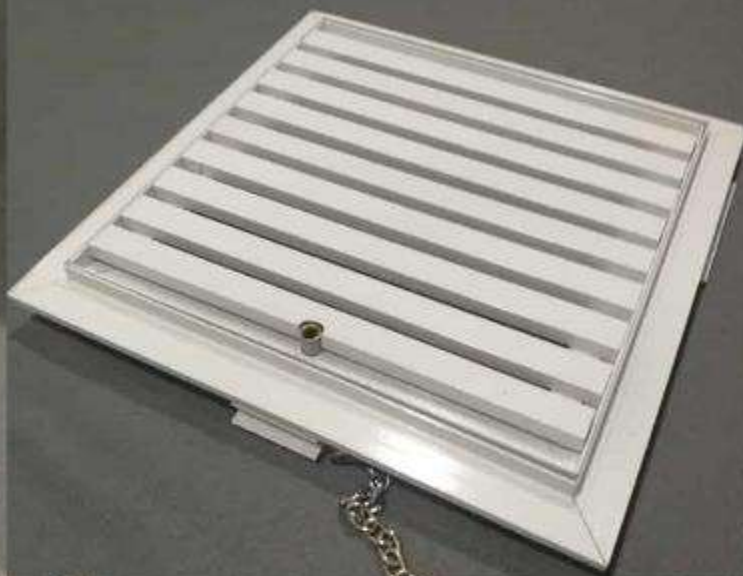

view from above ceiling side

innovative bolt hinge allows access panel shutter movement for zero gap groove and complete removal of access panel door

DEMOUNTABLE PANELING & PARTITION SYSTEM

[HTTPS://IQUBX.COM/MODULAR-ALUMINIUM-DEMOUNTABLE-PARTITION-WALL-SYSTEM/](https://iqubx.com/modular-aluminium-demountable-partition-wall-system/)

KEY FEATURES AND ADVANTAGES

[Back to index](#)

- The only paneling and partition systems which have been certified GREENPRO by IGBC, CII
- **WP01** is unique modular design with easily removable/ changeable panels for easy maintenance and interior design modification
- Various panel finishes including acoustic board/ cork / pre-laminated board/ lacquered glass or boards with various finishes can be used. Groove from 0-12 mm possible
- **Unique post and rail design does not require cleats or brackets for assembly. Therefore on site installation time is reduced drastically**
- Unique design creates a continuous vertical cavity which allows electrical conduits and plumbing pipes to be laid/ changed without any cutting of the frame and at any point of time during project execution or even post construction. Continuous cavity allows laying of continuous acoustic insulation for superior acoustics
- **The same systems can be used for paneling or can be doubled to create a partition for uniform aesthetics**
- **Comparable prices with traditional wooden finish partitions systems based on wood or aluminium frame and ply or prelam skin**

IQUBX

DOOR FRAME

[HTTPS://IQUBX.COM/ALUMINIUM-DOOR-FRAME/](https://iqubx.com/aluminium-door-frame/)

KEY FEATURES AND ADVANTAGES

[Back to index](#)

- Certified GREENPRO by IGBC, CII
- 50 mm wide, 23 mm thick, with double grooves of 4mm, rebate of 11 mm
- Has double rubber seal for effective air tightening and sound proofing
- Cost effective, maintenance free universal door frame can be used with any kind of partition or wall like Glass partition, Masonry wall, other partitions in all toilet areas, glass partitions, cabin doors etc
- This door frame is available in form of door frame section profiles for easy cutting and assembly on site in 2400mm length. It is also available as an interior door frame kit with gaskets, joinery brackets and screws
- **Half the price compared to wooden door frame with malamine polish/ Duco finish, much better finish**

**DF01
ALUMINIUM
DOOR FRAME**

IQUBX

FLOOR JUNCTION BOX

[HTTPS://IQUBX.COM/UNDER-FLOOR-JUNCTION-BOX/](https://iqubx.com/under-floor-junction-box/)

KEY FEATURES AND ADVANTAGES

- The only Floor Junction Boxes in the country which have been certified GREENPRO by IGBC, CII
- **PATENT** applied design
- IQUBX Modular Floor Junction Box can be fabricated on site or modified to any size and have high load bearing capacity
- **Best advantage is that the lid can take any floor finish, thus giving a seamless floor including stone, tiles, glass, wood, carpet etc**
- They are highly adjustable and can be perfectly aligned with the floor finish
- **IQUBX Junction Box is made of non corrosive aluminium which doesn't rust inside the floor thus protecting the cables**
- The lid cover does not come loose thus no entry of dust, mites, rodents and hence no tripping and accidents

**JB023 WITH HINGE,
HANDLE & WIRE MANAGER**

**IQUBX JB023
FLOOR JUNCTION BOX**

JB023 BASIC

WHY?

GI Floor Junction Box are not good enough !

WHY IQUBX Floor Junction Boxes are best for contemporary interiors?

kota stone insert in JB022 lid

Double lid or infact any design & shape possible as per requirement

Seam less, clean, aesthetic flooring for a contemporary interior

Unobstructed floor finish with high load capacity, doesn't squeak or creak

Recyclable Green Building Material Ideal for LEED Projects

Lid in cavity doesn't come loose, thus, no entry of dust, mites, bugs, rodents which may damage the wires and cause disease

OVER HERE

No loose covers means no accidents no tripping

Most economical solution as no wastage and can be self fabricated on site

IQUBX

FLOOR CABLE RACEWAY TRUNKING SYSTEM

[HTTPS://IQUBX.COM/FLOOR-CABLE-RACEWAY/](https://iqubx.com/floor-cable-raceway/)

KEY FEATURES AND ADVANTAGES

- Certified GREENPRO by IGBC, CII
- IQUBX Modular Floor Cable Raceway are ready to install at site under floor, on floor & on walls. Ideal for use in all under-floor and on-floor cabling and wiring
- Best advantage is that snap fit assembly of cover which is fast there is no use of screws
- Aluminium is a non-magnetic material, therefore, ideal for data cabling
- Aluminium raceways won't rust or corrode and will provide excellent protection to cables
- Easy access for maintenance with on-floor laying of raceways
- Best used with IQUBX floor junction boxes

trendy

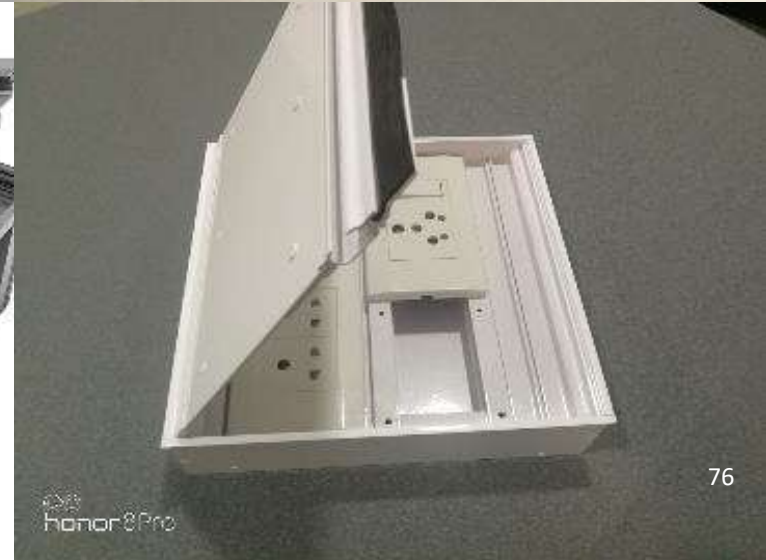

Unique modular, stackable in multiple width, aluminium floor trunking cable raceway with snap-fit cover lid can take high loads without sagging. For electrical & data wiring & cables

EXPOSED in-floor and on-floor Raceways
for better wire management and contemporary aesthetics
