

MRP LIST PRICE AND SPECS FOR IQUBX PRODUCTS 1 may 2019

The products are designed with minimum number of components for minimum logistics, ease of customization and product evolution.
 Products are modular by design to achieve high level of customization for end user. Most of the products can be modified locally
 Many components can be used in different products to achieve economy of logistics, ease of maintenance and repair. This also contributes to low carbon footprint, almost nil wastage, with high possibility of recyclability and reusability
 The products are made from 100% recycled aluminium and follow green design principles. They are the only products in their respective categories which have been certified "GREENPRO by IGBC, CII. Therefore, they are uniquely positioned to rise in the fast growing green building movement.

Floor Junction Boxes

The only Floor Junction Boxes which have been certified "GREENPRO by IGBC, CII. IQUBX Modular Floor Junction Box can be fabricated on site or modified to any size and have high load bearing capacity. Best advantage is that the lid can take any floor finish, thus giving a seamless floor. They are highly adjustable and can be perfectly aligned with the floor finish. IQUBX Junction Box is made of non corrosive aluminium which doesn't rust inside the floor thus protecting the cable. The lid cover does not come loose thus no entry of dust, mites, rodents and hence no tripping and accidents

1	https://iqubx.com/under-floor-junction-box/	Supply of heavy duty Greenpro certified, Aluminum Modular floor Junction box IQUBX JB022 with openable top lid. The junction box should be height adjustable to match exactly the floor finish. The lid should be able to carry the floor finish upto 20mm including stone, tile, carpet, wood etc and have good load bearing capacity. The floor junction box to have flange of 3-4 mm to edge finish the floor finish and lid material. The lid total collar depth approx 30mm. powder coat finish		Rates without lid infill material (which shall be done on site from existing material). Rates below are of specific sizes, though any size can be supplied on order. Cost of side walls extra. This is patent design.			
		100X100X60mm			each	940	
		150X150X60mm			each	1085	
		200X200X75mm			each	1344	
		300X300X75mm			each	1911	
		450X450X75mm			each	2870	
600X600X75mm	each	3955					
2	https://iqubx.com/under-floor-junction-box/	Supply of heavy duty Greenpro certified, Aluminum Modular floor Junction box IQUBX JB022L with openable top lid only without legs, base or side walls. The lid should be able to carry the floor finish upto 20mm including stone, tile, carpet, wood etc and have good load bearing capacity. The floor junction box to have flange of 3-4 mm to edge finish the floor finish and lid material. The lid total collar depth approx 30mm. powder coat finish		Rates without lid infill material (which shall be done on site from existing material). Rates below are of specific sizes, though any size can be supplied on order. Cost of side walls extra. This is patent design.			
		100X100X60mm			each	567	
		150X150X60mm			each	728	
		200X200X75mm			each	882	
		300X300X75mm			each	1204	
		450X450X75mm			each	1680	
600X600X75mm	each	2149					
3	https://iqubx.com/under-floor-junction-box/	Supply of heavy duty Greenpro certified, Aluminum Modular floor Junction box with double openable top lid and wire managers IQUBX JB022D. The junction box should be height adjustable to match exactly the floor finish. The lid should be able to carry the floor finish upto 20mm including stone, tile, carpet, wood etc and have good load bearing capacity. The floor junction box to have flange of 3-4 mm to edge finish the floor finish and lid material. The lid total collar depth approx 30mm. powder coat finish		Rates without lid infill material (which shall be done on site from existing material). Rates below are of specific sizes, though any size can be supplied on order. Cost of side walls and wire managers extra. This is patent design.

Electrical Floor Boxes

The only Floor Boxes which have been certified "GREENPRO by IGBC, CII. They have the unique Modular flexibility: Not only any number and any type of sockets / ports can be accommodated, they can be modified / changed later. This makes it highly modular and flexible and for multipurpose use in floor as well as flip-top box in conference table or work stations as well. It is a unique concept where the floor box is created out of modular bays, which can be of any length as per requirement. It has a very low depth of 55mm.

11	Electrical floor box - FB01	Supply of Greenpro certified Heavy Duty Aluminium Electrical floor Box Outlet with openable continuous Hinged Lid and a Rubber Wire Manager IQUBX FB01. The floor box can be fixed with any specified number of modules of electrical switch/socket plate and I/O Plate as per the requirement. The height of the floor box to be 55mm. The floor box can come in standard size of 260 x 260 x 55, or any size in widths of 165, 258, 351 (1, 2, 3 bays or more) and any length upto 2400. The recommended switch sockets to be MK wrap around series to ensure fixing for depth of 55mm. Comes in anodized finish, including the lid. anodize finish		Rates below are of specific sizes, though any size can be supplied on order. Cost of switch sockets are extra.					
		258x258mm, 2 bay, 8 modules each bay				each	3640		
		first bay, 165mm, 150 wide				each	1400		
	https://iqubx.com/electrical-floor-box-outlet/	first bay additional cost per 25mm				each	182		
		more than 1 bays, minimum 150 wide				each	630		
		additional bays, additional cost per 25mm				each	140		
		low voltage module / 15A module extra, per 25mm				each	140		

Ceiling Trap Doors

The only products which have been certified "GREENPRO by IGBC, CII. Various models available as per client requirement. Can be fabricated very fast in any size as per requirement. Iqubx ceiling trap doors are the only one in the country which can be supplied in very big sizes upto 8'x4'. A unique stiffening element doesn't allow large doors to warp/ sag. Thus IQUBX trap doors are very strong and durable. Unique Hinge systems do not allow shutters to fall accidentally and are very safe. IQUBX ceiling trap doors are the only one which can be fitted in POP ceiling.

12	Ceiling trap door - CTD-023H	Supply of Greenpro certified Lightweight Aluminium Access Ceiling Trapdoor with continuous aluminium hinge IQUBX CTD-023H. The Trapdoor to be able to carry 10mm Painted MDF Board / Painted Partical Board / Painted marine Ply / Prelaminated Board / painted bison board or calcium silicate board as per the requirement to match the ceiling finish with minimum visible flange. Fixed to soffit of slab and / or ceiling frame with appropriate strong support. The lid to be connected with trap door frame with 1 or 2 Chain with each trap door and locked with 1 or 2 allen keys. The Ceiling Trapdoor may have one or more openable Lid/Door depending upon the size of trapdoor. This model has collar depth of 20mm and flange of 3mm on both sides. Rates without lid infill material.		Rates without lid infill material (which shall be done on site from existing material). Rates below are of specific sizes, though any size can be supplied on order. This is patent design.

Floor Raceways

The only products which have been certified "GREENPRO by IGBC, CII. These are professionally designed systems to suit contemporary interiors and can be used Under floor, On floor and On walls. No Screws - Snapfit assembly of cover is fast, lighter unit weight is easier to handle, saving on labour. Extruded profiles fins can take heavy load and does not allow lid to snag. The extruded profile has grooves on all sides, allowing a strong grip to sub base material and avoiding cracks in the floor. Can be laid exposed on floors in office and commercial interiors with excellent finish and load bearing capacities. This is an ideal solution for carrying cables across an existing interior too without extensive renovation by laying on floor.

14	Floor raceway - RW011	Supply of Aluminium modular floor raceway IQUBX RW011/ wireway, extruded ribbed aluminium body, 1.2mm to 1.8 mm body thickness, with ribbed aluminium snap fit cover, good load bearing capacity. The raceway may be laid inside the floor, exposed on the floor or on vertical surfaces.		supplied in raw mill finish					
	https://iqubx.com/floor-cable-raceway/	Size 150mm X 45mm		2.4m length	PRM	1000			
		anodizing of lid extra			PRM	105			

Skirtings and Chair rail

The only products which have been certified "GREENPRO by IGBC, CII. IQUBX aluminium wall skirting is pre-finished and quick install product. This comes pre-finished in standard powder coating or anodized finishes. It can also be finished in customized powder coating finishes like wood textures and other plain colours as well. IQUBX SK031 is distinct from other available aluminium Wall skirting designs and chair rails as it doesn't require screws or adhesive to be fixed. Its unique design allows it to lock / snap-fit on its own profile when used inverted. It gives the unique advantage that the waste pieces can be used as mounting cleat by screwing them on wall and the skirting board can be mounted by single action. Can be used at dado height as chair rail or dado rail, single or double runs, matching the skirting board design and finish.

15	skirting board - SK031	Supply of modular snapfit universal aluminium skirting IQUBX SK031, 98 mm high x 5.5 thick, 1.2 mm wall thickness, snap fit assembly. Finished in anodizing or powder coating, as required.		the skirting waste pieces can be used to prepare cleats for fixing the skirting. Cost of endcaps and corner joints extra

Door and Door Frame

The door design is unique. It can incorporate double glass as well as single glass and has inbuilt handle profile. It can also be installed with concealed door closure and floor machine. The sleek door frame can be used to create rebate with partition systems for flush and glass doors on hinges making the cabin sound proof and air tight, and can be used to create independent door frames too.

29	Door frame - DF01	Supply of ALUMINIUM DOOR FRAMES FOR PARTITIONS and WALLS IQUBX DF01, 50 x 34, with rebate 10mm, double rubber seal, for use with glass and demountable partitions, assemblable independently as well to act as door frame for wall and gypsum partitions						
		anodized finish, extra		powder coat finish price	PRM	456		
		extra for fabricated frame			PRM	62.5		
					PRM	91		

Baffle Ceiling

The only products which have been certified "GREENPRO by IGBC, CI. World's only baffle ceiling system which is modular, can be fixed in various configuration, and with changeable finishes. It can be hung vertical or at a angle of 45 degree. Elements can be combined to form different shapes. All the exposed surfaces can incorporate multiple changeable finishes including lacquered glass, cork, laminates, polished veneer, printed vinyl etc. Unique design can even incorporate LED lighting on all the surfaces. Trendy, unique design is already in high demand for use in malls, cafeterias, offices, lobbies, residential towers and hotels.

30	baffle ceiling - BFC-1	Supply of Aluminium Baffle Ceiling IQUBX BFC-1 System with linear profile of Size 25X120mm, in Anodized or Powder Coated Finish along with the Hanging Frame and accessories, fixed to roof/Concrete Ceiling. The baffle ceiling system can be hung in two orientations, on Vertically straight at 90 degree and 45 degree angles. The Baffle Ceiling system to have capacity to hold Lacquered Glass, Laminated Ply, Pre-laminated Board, Edge-lit Acrylic, Cork, Printed Vinyl, or Polished Veneer as per the client's requirement.

Open Frame Rack system and D rings

The only products which have been certified "GREENPRO by IGBC, CI. This modular aluminium open rack system is completely flexible in configuration, have strong connectors, 100% aluminium and minimum number of components for better logistics. D ring wire manager is also readily available with or separately. This versatile system can be used to create very strong partitions, 2 post and 4 post open frame racks, modular server racks and even electrical panel boxes.

33	D ring - DR01	supply of D ring rack wire / cable manager for server racks and other racks, nylon material, fixable sideways or at back with nut and bolt, with multiple notches to secure zip ties, 137 x 52 x 19 mm		powder coated.extra for anodize finish 10%	each	280		
34	cable termination rack - cable distribution rack - CTR01 / CDR01	Supply of 2 post open frame rack made of modular extruded and machined aluminium components and injection moulded / CNC cut plastic components for use as cable distribution / termination rack for low voltage cables with system to mount matrix patch boards, terminal blocks, shield clamping saddles, wire managers, raceways, carrier rails etc as per requirements, with insulated legs and wall support channel		900 x 2100, cost of rack only without equipment, wire managers, D rings, raceways or carriers	each	105000		
35		Supply of extruded aluminium channels for construction of open frame rack system. The channels are designed for high modulus of elasticity, and very strong joinery with allen bolts and aluminium brackets		anodize finish cost 15% extra

Modular partition systems for work stations and tables

These partition systems are remarkable for their simplicity. With minimum components, and just 28 / 54mm wide partitions can be made for screens, table top partitions and aprons and desk systems. They can be interlocked in continuity, and 90 degree to form straight, L shaped and T shaped configurations. They can incorporate top mounted LED lights in any lengths. WS54 can be used with internal wiring and has additional possibility of making full height partitions as part of workstations or independent glass partitions (even post construction conversion from low ht to full ht is possible).

36	workstation modular partition - airline 28mm wd - WS28	supply of 28mm wd iqubx WS28 Airline modular partition system for workstations with infill panel prelam board / soft board / magnetic or non-magnetic glass board with endcaps and end channels as required						
		average size considered of each panel 16sqft (4' x 4') powder coated extra for anodizing, to be added in all panels		the size considered for area calculation will be the nearest higher rounded off dimension in feet for each side	SQM	2062.5		
		with prelam particle board 24mm infill			SQM	500		
		with soft board infill 2 x 12mm and ms sheet 1mm (cost of fabric upto 120 psqft)			SQM	3062.5		
		with non magnetic 5mm lacquered / backpainted glass and 12 thk prelam			SQM	3437.5		
		with magnetic 5mm lacquered / backpainted glass and 12thk prelam, 2 x 0.3mm GI sheets			SQM	6875		
		typical 4' x 4' partition with 1.5' high softboard and prelam below			SQM	7125		
		for size 4'x 3'		percentage price increase shall be extra above prices	each	4750	10%	
		for size 4'x 2'		percentage price increase shall be extra above prices	each		20%	
		for size 3'x 2', for apron etc		percentage price increase shall be extra above prices	each		25%

Modular leg systems for work stations and tables

Versatile leg system, made of extruded aluminium sections, the 2 component leg is assembled into a taper shape, taper is modifiable as per client requirement during manufacturing; triangular leg system is strong and versatile, sleek looking. Being made of aluminium these leg systems can be made as per client requirement very fast.

39	modular leg system - WSLT50	supply of 50 x 50 triangular aluminium extruded leg system for desk system work stations, powder coated finish, with plastic connector and height adjuster / buffers		590 wide or as per req for single width work stations, with 2 plastic connectors, price with powder coating	each	2800		
		WSLT50 section, powder coated		1180 wide or as per req for double width workstation tops, with 2 plastic connectors, price with powder coating	each	3920		
		50 x 50 horizontal beam, powder coated			PRM	560		
		plastic connector and beam holder			PRM	560		
					each	105		

40	modular leg system - WSL01	supply of 80 x 40 / 45 x 40 tapered extruded aluminium leg for work stations, powder coat finish frosty white with grey colour ABS mouting cap, chrome finish height adjuster bottom component, 725 high		single leg, price with powder coating					
		plastic top cap for WSL01			each	1960			
41	modular leg system - WSL01F	supply of 2 leg frame made with 2 nos WSL01 for single width workstation		580 wide or as per req, price with powder coating	each	4760			
		supply of 2 leg frame made with 2 nos WSL01 for double width workstation		1180 wide or as per req, price with powder coating	each	5320			
		supply of 4 leg frame made with 4 nos WSL01 for single width workstation, 860 / 1160 long or as per requirement, single beam - 1 nonshared workstation		580 wide or as per req, price with powder coating	each	10360			
		supply of 6 leg frame made with 6 nos WSL01 for single width workstation, 1780 / 2360 long or as per requirement, single beam - 2 nonshared workstation		581 wide or as per req, price with powder coating	each	16100			
		supply of 4 leg frame made with 4 nos WSL01 for double width workstation, 860 / 1160 long or as per requirement, double beam - 2 shared workstations		1180 wide or as per req, price with powder coating	each	12180			
		supply of 6 leg frame made with 6 nos WSL01 for double width workstation, 1780 / 2360 long or as per requirement, double beam - 4 shared workstations		1181 wide or as per req, price with powder coating	each	18200			
Flip top box / pop-up box and other accessories									
42	FTP-JB23	supply of 156 wide flip top box / pop up box IQUBX FTP-JB23 for table tops - work stations and meeting / conference table in length as per requirement upto 8' long, with continuous aluminium hinge and handle + wire manager, lid to accommodate 12 thk board with same finish as table top, powder coat finish		price with powder coating, the lid infill board to be done at client end	each	1862.5			
			156 x 450 - 12 M	minimum size	each	1562.5			
			156 X 300 - 8 M	minimum size	each	2162.5			
			157 X 600 - 16 M	minimum size	each	50			
			any customized size additional 25mm	width 156 mm	each				
TERMS & CONDITIONS									
		1) Above rates are Ex- Godown at Delhi.							
		2) Cost of packing with bubble is included in cost , however it can be packed as per client requirement for which the packing charges shall be extra.
